Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America ' s premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede ' s wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid ' s, handle like a pro ' s. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension ' s condition. He outlines testing procedures that will help you gauge how well you ' re improving your suspension, along with your riding. And, if you ' re inclined to perfect your bike ' s handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

The Accidental Billionaires meets the music streaming business in Press Play, a behind-the-scenes exposé of how Swedish college drop-out Daniel Ek and his financial partner Martin Lorentzon took on the giants of Silicon Valley and the music industry, betting everything on the power of an idea to build the world's largest online source of song On a San Francisco summer's eve in 2011, after more than a year of delays, Daniel Ek--the whiz kid CEO of Spotify--celebrated the hard-earned US launch of his company. Only fifteen minutes away lay the modest brick house belonging to Steve Jobs, who had worked hard to stop this moment from ever happening. The tech war between the Apple iPhone and Android had raged, and Jobs saw downloaded music, kept within his software, as the key weapon in his holy war against Google. But Spotify had redrawn the battle lines. With humble origins as a Swedish start-up, Ek's platform had catapulted to the top of the music streaming world, using the threat of piracy and illegal downloading to get the notoriously hard-lined music labels to sign with him. But if Ek thought that the fight was won that summer's night, he would soon learn otherwise. Investigative tech journalists Sven Carlsson and Jonas Leijonhufvud deliver an action-packed, revelatory true tale--based on hundreds of interviews and previously untapped sources--about the creation of company that has revolutionized how the world consumes sound.
