A heart-rending but uplifting story of the human spirit's ability to prevail. From the day he is five-years-old and dropped off at his foster home of the next eleven years, Stephen is mentally and physically tortured. No one in the system can help him. No one can tell him if he has a family. No one can tell him why, with obvious African-American features, he has the last name of Klakowicz. Along the way, a single faint light comes only from a neighbor's small acts of kindness and caring—and a box of books. From one of those books he learns that he has to fight in any way he can—for victory is in the battle. His victory is to excel in school. Against all odds, the author succeeded. He attended college, graduated, became a successful corporate executive, and married a wonderful woman with whom he established a loving family of his own. Through it, he dug voraciously through records and files and found his history, his birth family—and the ultimate disappointment as some family members embrace him, but others reject him. Readers won't be the same after reading this powerful story. They will share in the hurts and despair but also in the triumph against daunting obstacles. They will share this story with their family, with their friends, with their neighbors.

Chronicles the author's life and his hope and determination that helped to transform him from a neglected, orphaned toddler to a successful adult.

Chronicles the author's life and his hope and determination that helped to transform him from a neglected, orphaned toddler to a successful adult.

Given Half a Chance is both a snapshot of our world and a call to arms, setting out the most pressing environmental challenges that we face while making a passionate case for why we need to meet them. From fields of solar panels in Nevada to the flourishing agricultural landscapes of Ethiopia; from the traditional water harvesters of northern Rajasthan to Britain's inspiring waste campaigners; from the savannas of Northern Kenya teeming with elephants to the clear skies above Scandinavian cities, amazing things are happening right now across the world. People are acting with hope and courage, against all the odds, to make things better. The challenge before us is to go to scale and to replicate these successful approaches elsewhere, fast: this book draws on firsthand experience and interviews with many of the world's leading experts to show how.

In this stirring follow-up to his memoir, Steve Pemberton gives practical encouragement for how you can be a "human lighthouse" for others and through these inspiring stories will renew your hope for humanity. Our polarized, divisive culture seems to be without heroes and role models. We are adrift in a dark sea of disillusionment and distrust and we need "human lighthouses" to give us hope and direct us back to the goodness in each other and in our own hearts. Steve Pemberton found a lighthouse in an ordinary man named John Sykes, his former high school counselor. John gave Steve a safe harbor after Steve escaped an abusive foster home and together they navigated a new path that led to personal and professional success. Through stories of people like John and several others, you will identify how the hardships you have overcome equip you to be a "human lighthouse," inspiring those around you. The humble gestures of kindness that change the course of our lives can shift the course for America too. With a unique vision for building up individuals and communities and restoring trust, The Lighthouse Effect opens your eyes to those who are quietly heroic. You will reflect on the lighthouses in your own life and be reminded that the greatest heroes are alongside us--and within us.

In this innovative study, Crystal Sanders explores how working-class black women, in collaboration with the federal government, created the Child Development Group of Mississippi (CDGM) in 1965, a Head Start program that not only gave poor black children access to early childhood education but also provided black women with greater opportunities for political activism during a crucial time in the unfolding of the civil rights movement. Women who had previously worked as domestics and sharecroppers secured jobs through CDGM as teachers and support staff and earned higher wages. The availability of jobs independent of the local white power structure afforded these women the freedom to vote in elections and petition officials without fear of reprisal. But CDGM's success antagonized segregationists at both the local and state levels who eventually defunded it. Tracing the stories of the more than 2,500 women who staffed Mississippi's CDGM preschool centers, Sanders's book remembers women who went beyond teaching children their shapes and colors to challenge the state's closed political system and white supremacist ideology and offers a profound example for future community organizing in the South.

Steve Pemberton's incredible true story teaches us that no matter how broken our past or great our misfortunes, we can create a new beginning and build a life of love and kindness. This new adaptation of the USA TODAY bestselling memoir A Chance in the World shares Steve's journey with 8 to 12-year-olds with sensitivity, honesty, and hope. Since its publication in 2012, Steve's story has inspired thousands of people around the world. He has shared his story with millions on the Today Show and CBS News. In this Young Readers Edition, A Chance in the World teaches children: to begin each day with hope that there is goodness in the world, and it is possible to be a beacon of light for others that they can overcome challenging circumstances that everyone comes from different backgrounds and has value to apply Steve's inspirational message to their own lives, through age-appropriate discussion questions Taken from his mother at age three, Steve Klakowicz lives in the clutches of a cruel foster family. He finds his only refuge in a box of books given to him by a kind stranger, books that take him to new worlds he can only imagine. He begins to hope that one day he might have a different life. As he grows, Steve is determined to unravel the mystery of his origins. A light-skinned boy with blue eyes, a curly Afro, and a Polish last name, he embarks on an extraordinary quest for his identity, armed with only one clue. Yet nothing is as it appears.

The riveting account of how one brigade turned Iraq's most violent city into a model of stability Colonel Sean MacFarland's brigade arrived in Iraq's

Get Free A Chance In The World An Orphan Boy Mysterious Past And How He Found Place Called Home Ebook Steve Pemberton

deadliest city with simple instructions: pacify Ramadi without destroying it. The odds were against him from the start. In fact, few thought he would succeed. Ramadi had been going steadily downhill. By 2006, insurgents roamed freely in many parts of the city in open defiance of Iraq's U.S.-backed government. Al-Qaeda had boldly declared Ramadi its capital. Even the U.S. military acknowledged the province would be the last to be pacified. A lanky officer with a boyish face, MacFarland was no Patton. But his soft voice masked an iron will and a willingness to take risks. While most of the American military was focused on taming Baghdad, MacFarland laid out a bold plan for Ramadi. His soldiers would take on the insurgents in their own backyard. He set up combat outposts in the city's most dangerous neighborhoods. Snipers roamed the dark streets, killing al-Qaeda leaders and terrorist cells. U.S. tanks rumbled down the streets, firing point blank into buildings occupied by insurgents. MacFarland's brigade engaged in some of the bloodiest street fighting of the war. Casualties on both sides mounted. Al-Qaeda wasn't going to give up easily. Ramadi was too important. MacFarland wasn't going to back down either. The two sides had fought to a stalemate. At least until Sheik Abdul Sattar Bezia al-Rishawi emerged. A minor tribal leader, Sheik Sattar had earned his reputation as a smuggler. He carried a large six-shooter on his hip and had a taste for whiskey. But he hated al-Qaeda and was watching MacFarland's brigade as they battled militants toe-to-toe. This was a different group of Americans, Sattar thought. Sattar approached MacFarland and said he was ready to join with the Americans and fight al-Qaeda. Other officers might have kept their distance. MacFarland didn't hesitate. He promised Sattar his support. What followed was one of history's unlikeliest -- and most successful -- partnerships. Together, the Americans and Sattar's growing band of fighters drove al-Qaeda from Ramadi. *A Chance in Hell* is compelling tale of combat leadership and how a handful of men turned the tide of war at a time when it looked most hopeless.

New love. Exotic destinations. A once-in-a-lifetime adventure. What could go wrong? City girl Torre DeRoche isn't looking for love, but a chance encounter in a San Francisco bar sparks an instant connection with a soulful Argentinean man who unexpectedly sweeps her off her feet. The problem? He's just about to cast the dock lines and voyage around the world on his small sailboat, and Torre is terrified of deep water. However, lovesick Torre determines that to keep the man of her dreams, she must embark on the voyage of her nightmares, so she waves good-bye to dry land and braces for a life-changing journey that's as exhilarating as it is terrifying. Somewhere mid-Pacific, she finds herself battling to keep the old boat, the new relationship, and her floundering sanity afloat. . . . This sometimes hilarious, often harrowing, and always poignant memoir is set against a backdrop of the world's most beautiful and remote destinations. Equal parts love story and travel memoir, *Love with a Chance of Drowning* is witty, charming, and proof positive that there are some risks worth taking.

Bauman urges us to think in new ways about a newly flexible, newly challenging modern world. In an era of routine travel, where most people circulate widely, the inherited beliefs that aid our thinking about the world have become an obstacle. He challenges members of the "knowledge class" to overcome their estrangement from the rest of society.
