process should be built. Opening your app up and taking the new feature you just developed for a test drive is a good practice. This is a standard part of our testing process at Hubstaff.

Should I write unit tests?
Yes and I'll tell you why.
Determine if you need state-based or interaction-

Read Free Answer Guide

based testing. A unit test can be used to check two kinds of scenarios. State-based testing is used to see if a program unit produces proper or expected results.

Interaction-based testing, on the other hand, is used to see if a unit sets anticipated methods into action.
