A roadmap requires regular attention: Roadmap building needs to be regularly exercised—not just once a year. Creating value for the customer is not about sticking to a plan, but being able to respond to change. The roadmap tool question is overrated: You don ' t need a tool to create a product roadmap. Whiteboards and index cards are just fine, as are Google Apps, Murals, Keynote, or Excel—whatever you feel comfortable with.

By contrast, enterprise organizations and hard product manufacturers may be working with five or seven-year-long roadmaps. Whatever the frequency, however adaptive the team, the contents of a roadmap are highly subject to change, but the process remains relatively constant.

The Start-to-Finish, Best-Practice Guide to Implementing and Using DITA Darwin Information Typing Architecture (DITA) is today ’ s most powerful toolbox for constructing information. By implementing DITA, organizations can gain more value from their technical documentation than ever before. Now, three DITA pioneers offer the first complete roadmap for successful DITA adoption, implementation, and usage. Drawing on years of experience helping large organizations adopt DITA, the authors answer crucial questions the “ official ” DITA documents ignore, including: Where do you start? What should you know up front? What are the pitfalls in implementing DITA? How can you avoid those pitfalls? The authors begin with topic-based writing, presenting proven best practices for developing effective topics and short descriptions. Next, they address content architecture, including how best to set up and implement DITA maps, linking strategies, metadata, conditional processing, and content reuse. Finally, they offer “ in the trenches ” solutions for ensuring quality implementations, including guidance on content conversion. Coverage includes: Knowing how and when to use each DITA element – and when not to Writing “ minimalist, ” task-oriented information that quickly meets users ’ needs Creating effective task, concept, and reference topics for any product, technology, or service Writing effective short descriptions that work well in all contexts Structuring DITA maps to bind topics together and provide superior navigation Using links to create information webs that improve retrievability and navigation Gaining benefits from metadata without getting lost in complexity Using conditional processing to eliminate redundancy and rework Systematically promoting reuse to improve quality and reduce costs Planning, resourcing, and executing effective content conversion Improving quality by editing DITA content and XML markup ¿ If you ’ re a writer, editor, information architect, manager, or consultant who evaluates, deploys, or uses DITA, this book will guide you all the way to success. Also see the other books in this IBM Press series: Developing Quality Technical Information: A Handbook for Writers and Editors The IBM Style Guide: Conventions for Writers and Editors

This IBM® Redbooks® publication provides best practice guidance for planning, installing, configuring, and employing the IBM TS7600 ProtecTIER® family of products. It provides the latest best practices for the practical application of ProtecTIER Software Version 3.4. This latest release introduces the new ProtecTIER Enterprise Edition TS7650G DD6 model high performance server. This book also includes information about the revolutionary and patented IBM HyperFactor® deduplication engine, along with other data storage efficiency techniques, such as compression and defragmentation. The IBM System Storage® TS7650G ProtecTIER Deduplication Gateway and the IBM System Storage TS7620 ProtecTIER Deduplication Appliance Express are disk-based data storage systems: The Virtual Tape Library (VTL) interface is the foundation of ProtecTIER and emulates traditional automated tape libraries. For your existing ProtecTIER solution, this guide provides best practices and suggestions to boost the performance and the effectiveness of data deduplication with regards to your application platforms for your VTL and FSI (systems prior to version 3.4). When you build a ProtecTIER data deduplication environment, this guide can help IT architects and solution designers plan for the best option and scenario for data deduplication for their environments. This book can help you optimize your deduplication ratio, while reducing the hardware, power and cooling, and management costs. This Redbooks publication provides expertise that was gained from an IBM ProtecTIER System Client Technical Specialist (CTS), Development, and Quality Assurance teams. This planning should be done by the Sales Representative or IBM Business Partner, with the help of an IBM System CTS or IBM Solution Architect.

The essential guide for today's savvy controllers Today's controllers are in leadership roles that put them in the unique position to see across all aspects of the operations they support. The Master Guide to Controllers' Best Practices, Second Edition has been revised and updated to provide controllers with the information they need to successfully monitor their organizations' internal control environments and offer direction and consultation on internal control issues. In addition, the authors include guidance to help controllers carryout their responsibilities to ensure that all financial accounts are reviewed for reasonableness and are reconciled to supporting transactions, as well as performing asset verification. Comprehensive in scope the book contains the best practices for controllers and: Reveals how to set the right tone within an organization and foster an ethical climate Includes information on risk management, internal controls, and fraud prevention Highlights the IT security controls with the key components of successful governance Examines the crucial role of the controller in corporate compliance and much more The Master Guide to Controllers' Best Practices should be on the bookshelf of every controller who wants to ensure the well-being of their organization.

The complete, best-practice guide to implementing and using DITA: expert, 'in the trenches' advice you can't find anywhere else! • • Answers the crucial questions the 'official' DITA documentation doesn't cover, from 'Where do you start?' to 'How do you avoid the pitfalls?' • Reflects the authors' unsurpassed experience in all facets of enterprise-scale DITA planning, deployment, and day-to-day usage. • Offers practical guidance on topic-based writing, content architecture, and ensuring a quality implementation. Darwin Information Typing Architecture (DITA) is today's most powerful toolbox for constructing information. Implementing DITA can help organizations significantly improve the value of their technical documentation. This book brings together best practices and real-world guidance for success with DITA deployment and usage. Drawing on years of experience helping organizations implement DITA, the authors answer the crucial questions the 'official' DITA documents ignore: • • Where do you start in implementing DITA? • What should you know before you start writing? • What are DITA's gotchas and pitfalls? • Which DITA elements, attributes, and features should you know upfront, and which can wait? Technical writers and their managers can use this book as a complete roadmap for DITA adoption and implementation. Part 1 walks through the basics of topic-based writing, especially the importance of writing accurate, usable short descriptions. Part 2 covers more advanced topics related to content architecture, including DITA maps, linking strategies, metadata, conditional processing, and content reuse. Part 3 covers quality DITA implementations, offering crucial guidance for converting content to DITA, whether you do it in-house or utilize a third-party vendor.

The issues, opportunities and challenges of aligning information technology more closely with an organization and effectively governing an organization's Information Technology (IT) investments, resources, major initiatives and superior uninterrupted service is becoming a major concern of the Board and executive management in enterprises on a global basis. An integrated and comprehensive approach to the alignment, planning, execution and governance of IT and its resources has become critical to more effectively align, integrate, invest, measure, deploy, service and sustain the strategic and tactical direction and value proposition of IT in support of organizations. Much has been written and documented about the individual components of IT Governance such as strategic planning, demand (portfolio investment) management, program and project management, IT service management and delivery, strategic sourcing and outsourcing, performance management and metrics, like the balanced scorecard, compliance and others. Much less has been written about a comprehensive and integrated IT/Business Alignment, Planning, Execution and Governance approach. This new title fills that need in the marketplace and gives readers a structured and practical solutions using the best of the best principles available today. The book is divided into nine chapters, which cover the three critical pillars necessary to develop, execute and sustain a robust and effective IT governance environment - leadership and proactive people and change agents, flexible and scalable processes and enabling technology. Each of the chapters also covers one or more of the following action oriented topics: demand management and alignment (the why and what of IT – strategic planning, portfolio investment management, decision authority, etc.); execution management (includes the how - Program/Project Management, IT Service Management with IT Infrastructure Library (ITIL) and Strategic Sourcing and outsourcing); performance, risk and contingency management (e.g. includes COBIT, the balanced scorecard and other metrics and controls); and leadership, teams and people skills.

This volume contains the proceedings of the Fourth International Conference on Sustainability in Energy and Buildings, SEB12, held in Stockholm, Sweden, and is organized by KTH Royal Institute of Technology, Stockholm, Sweden in partnership with KES International. The International Conference on Sustainability in Energy and Buildings focuses on a broad range of topics relating to sustainability in buildings but also encompassing energy sustainability more widely. Following the success of earlier events in the series, the 2012 conference includes the themes Sustainability, Energy, and Buildings and Information and Communication Technology, ICT. The SEB '12 proceedings include invited participation and paper submissions across a broad range of renewable energy and sustainability-related topics relevant to the main theme of Sustainability in Energy and Buildings. Applicable areas include technology for renewable energy and sustainability in the built environment, optimization and modeling techniques, information and communication technology usage, behavior and practice, including applications.

Praise for Earlier Edition: "This is a detailed yet practical guide to planning, developing, and evaluating nursing curricula and educational programs. It provides a comprehensive and critical perspective on the totality of variables impacting curricular decisions...This book provides readers with a comprehensive overview of curriculum development, redesign, and evaluation processes...92 - 4 Stars" —Doody'sBook Reviews The fifth edition of Keating's Curriculum Development and Evaluation in Nursing Education provides comprehensive, detailed coverage of developing a quality curriculum that addresses competencies and accreditation standards and, most importantly, prepares students to become first-rate professionals. It includes a timely discussion of the Covid pandemic and its sizable impact on nursing education, expanded coverage of online learning, a new chapter on developing curriculum for clinical environments, current examples of specific strategies in practice, updated AACN essentials, and an upgraded format that enhances readability. With step-by-step guidance and detailed case studies, the fifth edition provides essential content for nursing students and novice educators on how to develop a quality curriculum, while also helping advanced nursing educators and faculty to meet the challenges of a rapidly changing nursing education environment. Each chapter reinforces learning by providing an introduction, summary, and multiple clear objectives along with examples addressing specific teaching strategies—particularly clinical training and staff development. At the end of each chapter are separate sets of questions and learning activities for nursing faculty and graduate students. An extensive Faculty Resource package includes a course syllabus, suggested teaching strategies and resources, PowerPoints for each section, and supplemental and reflective student learning activities. New to the Fifth Edition New chapter on developing curriculum for staff development/nursing professional development specialists in clinical environments New chapter on taxonomies and development on critical thinking Updated information on distance education, online learning, informatics, and technology Updated information on course development strategies for application of learning theories, educational taxonomies, and team building Provides example of preparation for and participation in a virtual CCNE site visit implemented during the pandemic Updated AACN Essentials/Domains and application to curriculum development and evaluation Upgraded format including two-color design and improved readability Key Features: Offers the most in-depth coverage of nursing curriculum development Supports new faculty as they transition to academia Discusses the theories, concepts, and tools needed for curriculum development and program evaluation Describes the scope of academic curriculum models at every practice and academic level Weaves the concept of interdisciplinary collaboration in education throughout Includes an Instructor's Manual and PowerPoints Serves as a CNE certification review

This is the video enhanced eBook version of the print title. Watch video demonstrations to see how to implement some of the advanced features of DITA discussed in this book. With these videos you'll learn to code short descriptions, links, conditional processing, and content references. In addition, you will find instructions in the last few pages of your eBook that direct you to the download site for the set of DITA sample files used in examples throughout the book. The Start-to-Finish, Best-Practice Guide to Implementing and Using DITA Darwin Information Typing Architecture (DITA) is today's most powerful toolbox for constructing information. By implementing DITA, organizations can gain more value from their technical documentation than ever before. Now, three DITA pioneers offer the first complete roadmap for successful DITA adoption, implementation, and usage. Drawing on years of experience helping large organizations adopt DITA, the authors answer crucial questions the "official" DITA documents ignore, including: Where do you start? What should you know up front? What are the pitfalls in implementing DITA? How can you avoid those pitfalls? The authors begin with topic-based writing, presenting proven best practices for developing effective topics and short descriptions.
