Blue follows three roommates as they navigate life and love in their post-college years. Tash Daniels, the former party girl, falls for deejay Aidan. Always attracted to the wrong guy, what happens when the right one comes along? Jason Woo, a lighthearted model on the rise, uses the club scene as his personal playground. While he's adept at helping Tash with her personal life, how does he deal with his own when he meets a man that defies his expectations? Penelope, a reserved and earnest graduate student slips under the radar, but she has a secret no one suspects. As the characters

stories unfold, each is forced to confront their life choices or complacency and choose which version of themselves they want to be. Blue is a novel about identity, friendship, figuring out who we are during the "in-between" phases of life, and the search for people who "get us." The characters in Blue show how our interactions with people often bump up against backstage struggles we know nothing of. Visual art, television and film, appear as signposts throughout the narrative, providing a context for how we each come to build our sense of self in the world. With a tribute to 1980s pop culture, set against the backdrop of contemporary New York, Blue both celebrates and questions the ever-changing cultural landscape against which we live our stories, frame by frame. Although fictional, Blue is grounded in interview research, teaching and personal observations. It can be read entirely for pleasure or used as supplemental reading in a variety of courses in women's/gender studies, sociology, psychology, communication, popular culture, media studies, qualitative inquiry, narrative inquiry or arts-based research. The protagonist, Tash Daniels, originally appeared in the best-selling novel Low-Fat Love (Blue is set several years later). Blue can be read as a stand-alone novel. Blue is a joyful, inspiring and painfully beautiful novel written by gifted scholar and writer, Patricia Leavy. Norman Denzin, Ph.D., University of Illinois at Urbana-Champaign I love it. Tash is so familiar and yet unique. I get her discontents and I am rooting for her. I find the novel to be cool, hip, and awesome! It would be fantastic in any number of college courses. Young adults should read this. BRAVO, Patricia Leavy! Laurel Richardson, Ph.D., The Ohio State University An engaging piece of public scholarship, Blue provides rich food for thought about the pop culture landscape and how it shapes our own stories. This will be a useful and fun teaching tool. Sut Jhally, Ph.D., University of Massachusetts at Amherst; Founder & Executive

Director, Media Education Foundation Patricia Leavy, Ph.D., is an award-winning independent sociologist and best-selling author.

Professor Peyton Wilde has an enviable life teaching sociology at an idyllic liberal arts college--yet she is troubled by a sense of fading inspiration. One day an invitation arrives. Peyton has been selected to attend a luxurious all-expense-paid seminar in Iceland, where participants, billed as some of the greatest thinkers in the world, will be charged with answering one perplexing question. Meeting her diverse teammates--two neuroscientists, a philosopher, a dance teacher, a collage artist, and a farmer--Peyton wonders what she could ever have to contribute. The ensuing journey of discovery will transform the characters' work, their biases, and themselves. This suspenseful novel shows that the answers you seek can be found in the most unlikely places. It can be read for pleasure, is a great choice for book clubs, and can be used as unique and inspiring reading in qualitative research and other courses in education, sociology, social work, psychology, and communication.

Privilege Through the Looking-Glass is a collection of original essays that explore privilege and status characteristics in daily life. This collection seeks to make visible that which is often invisible. It seeks to sensitize us to things we have been taught not to see. Privilege, power, oppression, and domination operate in complex and insidious ways, impacting groups and individuals. And yet, these forces that affect our lives so deeply seem to at once operate in plain sight and lurk in the shadows, making them difficult to discern. Like water to a fish, environments are nearly impossible to perceive when we are immersed in them. This book attempts to expose our environments. With engaging and powerful writing, the

contributors share their personal stories as a means of connecting the personal and the public. This volume applies an intersectional perspective to explore how race, class, gender, sexuality, education, and ableness converge, creating the basis for privilege and oppression. *Privilege Through the Looking-Glass* encourages readers to engage in self and social reflection, and can be used in a range of courses in sociology, social work, communication, education, gender studies, and African American studies. Each chapter includes discussion questions and/or activities for further engagement.

▫ *Privilege Through the Looking-Glass* offers a varied and profound examination of how privilege functions as the underside of power. This is a powerful and important book about inequality, identity, agency, and the challenge of addressing difference as part of a democratic ethos in a time of growing authoritarianism all over the world. Every educator should read this book.

▫ Henry A. Giroux, Professor, McMaster University ▫ A courageous volume that blends theory, personal experiences, and reflections on contemporary debates over identity. This is a book that is more about the politics of identity than identity politics. It is a powerful testament to the urgency of understanding privilege and deserves to be read widely.

▫ Peter McLaren, Distinguished Professor, Chapman University ▫ *Privilege Through the Looking-Glass* unmask[s] the casual "isms" that suppress the best aspects of our humanity, by assembling a powerful and honest collection of parables. Poignant and unflinching, the contributors eschew the cloak of objectivism to give the hard truth about privilege as a social ill, and the collective responsibility of the conscious community to confront all forms of oppression... this book has lessons for anyone with the spirit to explore better ways to be themselves and relate to others.

▫ Ivory A. Toldson, Professor, Howard University, and Editor-in-Chief for *The Journal of Negro*

Education Patricia Leavy, Ph.D., is an award-winning independent sociologist and best-selling author.

The turn to fiction as a social research practice is a natural extension of what many researchers and writers have long been doing. Patricia Leavy, a widely published qualitative researcher and a novelist, explores the overlaps and intersections between these two ways of understanding and describing human experience. She demonstrates the validity of literary experimentation to the qualitative researcher and how to incorporate these practices into research projects. Five short stories and excerpts from novellas and novels show these methods in action. This book is an essential methodological introduction for those interested in studying or practicing arts-based research.

This user-friendly book provides a step-by-step guide to using the five major approaches to research design: quantitative, qualitative, mixed methods, arts-based, and community-based participatory research. Chapters on each approach follow a unique format--they present a template for a research proposal and explain in detail how to conceptualize and fill in every section. Terminology commonly used within each approach is identified, and key moments of ethical decision making are flagged. Interdisciplinary research examples draw on current events and social justice topics. Unique coverage includes hot topics: replication studies and data sharing, tailoring proposals to different audiences, and more. The book also includes a general introduction to social research; an in-depth, practical discussion of ethics; and a chapter on how to begin a research study, from planning a topic to developing a research question via a literature review. □
Pedagogical Features *Multiple "Review Stops" in each chapter--quick quizzes with answer keys. *End-of-chapter

writing exercises, research activities, and suggested resources. *Bold-face key terms and an end-of-book glossary.
*Boxed tips from experts in the respective approaches.
*Supplemental PowerPoint slides for instructors using the book in a class. □ □

Transdisciplinary research is issue-driven, addressing contemporary social questions from a range of critical theoretical perspectives unhampered by the theoretical and methodological restrictions of traditional disciplinary boundaries. In this brief, informative guide, Patricia Leavy shows how a transdisciplinary approach can produce more effective results for researchers hoping to ameliorate social problems and foster social justice. Leavy demonstrates the value of transdisciplinary approaches in mixed methods design, and how trans approaches actually help fulfill the promises and goals of mixed methods research. She explains its relationship to multi-disciplinary and interdisciplinary research and its value in community-based and arts-based research projects. Providing the key principles and methods needed to conduct a transdisciplinary study, Leavy also offers numerous examples from multiple research sectors to show its effectiveness. Ideal as a brief introductory text for students engaged in this style of research.

Shooting Stars is a novel about walking through our past traumas, moving from darkness to light, and the ways in which love □ from lovers, friends, or the art we experience □ heals us.

Oral History is part of the Understanding Qualitative Research series, which is designed to provide researchers with authoritative guides to understanding, presenting, and critiquing analyses and associated inferences. There are

three subareas in this series: Quantitative Research, Measurement, and Qualitative Research. This volume fits in the Qualitative Research group and addresses issues surrounding oral history - how to both fully and succinctly report and present this material, as well as the challenges of evaluating it.

The Practice of Qualitative Research guides readers step by step through the process of collecting, analyzing, designing, and interpreting qualitative research. Written by Sharlene Nagy Hesse-Biber in an engaging style, this student-centered text offers invaluable insights into the practice of qualitative research, with coverage of in-depth interviewing, focus groups, ethnography, case study, and mixed methods research. The Third Edition features even more integrated attention to online research and implications of social media throughout all methods chapters; updates on qualitative analysis software; and significantly expanded coverage of ethics.

Film follows three women who moved to Los Angeles to pursue their dreams. With a tribute to popular culture, set against the backdrop of Tinseltown, it celebrates how the art we make and consume can shape our stories, scene by scene.
