century. What makes the current study unique is that it privileges Stoker's use of the Gothic but also addresses that Stoker wrote seventeen other books plus numerous articles and short stories. Since a number of these works are decidedly not Gothic, the study puts his Gothic novels and short stories into the perspective of everything that he wrote. The creator of Dracula also wrote *The Duties of Clerks of Petty Sessions in Ireland*, a standard reference work for clerks in the Irish civil service, as well as *The Man and Lady Athlyne*, two delightful romances. Furthermore, Stoker was fascinated with technological development and racial and gender development at the end of the century as well as in supernatural mystery. Indeed the study demonstrates that the tension between the things that can be explained rationally and the things that cannot is important to our understanding of Stoker as a Gothic writer.
