This edition has been thoroughly revised and enlarged. It is still considered to be a must for all those sitting Civil Engineering examinations.

For a decade, Structural Engineering (Conventional and Objective Type) has provided fundamental knowledge of the subject to the students of Civil Engineering and aspirants of GATE students. Divided in 10 parts, each of which delves in primary topics of the subject. Major topics which are dealt with Structural Materials, Architectural Materials, Solid Mechanics and Structural Systems, Design of Steel Structures, Design of Reinforced Concrete Structures, Design of Prestressed Concrete Structures, Design of Masonry and Timber Structures, Construction Technology, Soil Mechanics & Foundation Engineering and GATE Questions.

A Textbook of workshop Technology(Manufacturing Processes)to the students of degree and diploma of all the Indian and foreign universities.The object of this book is to present the subject matter in a most concise,compact,to the point and lucid manner.While writing the book,we have constantly kept in mind the various requirements of the students.No effort has been spared to enrich the book with simple language and self-explanatory diagrams.Every care has been taken not to make the book voluminous.as the students have also to face other subjects of equal importance.

I feel elevated in presenting the New edition of this standard treatise.The favourable reception,which the previous edition and reprints of this book have enjoyed,is a matter of great satisfaction for me.I wish to express my sincere thanks to numerous professors and students for their valuable suggestions and recommending the patronise this standard treatise in the future also.

The Multicolor Edition Has Been thoroughly revised and brought up-to-date.Multicolor pictures have been added to enhance the content value and to give the students and idea of what he will be dealing in relity,and to bridge the gap between theory and Practice.
