This law and economics scholarship is more developed in relation to corporate governance issues raised by the phenomenon of the separation of ownership from the control/management of companies, an ownership structure that is addressed in the next section.

INTRODUCTION TO COMPANY LAW

Traditional organizational structure does not take into account the "human factor," which is the emotions and motivators that drive people in the workplace, but the open-system theory does. Companies acknowledge the social and cultural motivators that drive individuals to succeed and use them to improve productivity at all managerial levels.

Theories of Organizational Structure | Bizfluent

Positive law theory is also called, imperative or analysts law theory. It refers to the law that is actually laid down by separating "is" from the law, which is "ought" to be. It has the belief that law is the rule made and enforced by the sovereign body of the state and there is no need to use reason, morality, or justice to determine the validity of law.

MAJOR THEORIES OF LAW

The Companies Act went on to define a group structure in S.1162 as a company will be the parent if it has the right to exercise a 'dominant influence' over a company by virtue of provisions contained in the articles of the subsidiary, or by virtue of a control contract. There are other reasons why a company form a group.
