Prototype Drug Charts provide you with quick reference to key drug information, including dosages, contraindications, drug-lab-food interactions, pharmacokinetics, and more. UNIQUE! An extensive Dosage Calculations unit strengthens your mathematical skills and eliminates the need for a separate calculations book. Nursing Process summaries guide you through client care and drug therapy within the step-by-step framework of the nursing process. Critical Thinking Case Studies challenge you to apply your knowledge and analytical skills to realistic patient scenarios. A Principles of Drug Administration chapter guides you through drug administration procedures, addressing all routes of administration and various settings. Client Teaching sections prepare you for client interaction, with teaching tips for general drug administration, self-administration, diet, side effects, and cultural considerations. A companion CD reinforces your knowledge and enhances your review with approximately 450 NCLEX examination-style review questions, including alternate-item format questions; 30 pharmacology animations; IV therapy and medication error checklists; drug calculation problems; and electronic dosage calculators. UNIQUE! Illustrated overviews of normal anatomy and physiology in all drug therapy chapters help you understand how drugs work in various body systems. An appendix on bioterrorism agents helps you recognize the clinical manifestations of bioterrorism weapons and respond with appropriate drug treatments. UNIQUE! Herbal Alerts provide quick reference to side effects, drug interactions, and additional information for popular herbs you may encounter in practice. NCLEX Examination-style Study Questions prepare you for the growing pharmacology coverage on the NCLEX-RN exam. Updated and expanded Preventing Medication Errors boxes help you ensure safe drug administration. Targeted Therapies to Treat Cancer chapter

Read Online Crane39s Technical Paper 410

familiarizes you with cutting-edge cancer treatments such as multikinase inhibitors, angiogenesis inhibitors, and monoclonal antibodies. A new unit helps you easily locate appropriate drug therapy for managing pain and inflammation. Additional photos and illustrations visually reinforce your understanding of drug actions and relevant anatomy and physiology. Separate units on antibacterial and antiinfective agents clearly differentiate these commonly used agents. Page numbers accompany key terms for easier reference.

Balanced, broad-based, and up to date, this comprehensive text explores the nature and critical issues of earth resources and the impacts that resource usage has on the earth environment. The authors offer full coverage of all major types of earth resources-energy, metallic, nonmetallic, water, soil. A minimal scientific background is assumed.

----- A lost starship... A dire warning from futures past... A desperate search for salvation... ----- Captain Mitchell "Ares" Williams is a Space Marine and the hero of the Battle for Liberty, whose Shot Heard 'Round the Universe saved the planet from a nearly unstoppable war machine. He's handsome, charismatic, and the perfect poster boy to help the military drive enlistment. Pulled from the war and thrown into the spotlight, he's as efficient at charming the media and bedding beautiful celebrities as he was at shooting down enemy starfighters. After an assassination attempt leaves Mitchell critically wounded, he begins to suffer from strange hallucinations that carry a chilling and oddly familiar warning: They are coming. Find the Goliath or humankind will be destroyed. Convinced that the visions are a side-effect of his injuries, he

Read Online Crane39s Technical Paper 410

tries to ignore them, only to learn that he may not be as crazy as he thinks. The enemy is real and closer than he imagined, and they'll do whatever it takes to prevent him from rediscovering the centuries lost starship. Narrowly escaping capture, out of time and out of air, Mitchell lands at the mercy of the Riggers - a ragtag crew of former commandos who patrol the lawless outer reaches of the galaxy. Guided by a captain with a reputation for cold-blooded murder, they're dangerous, immoral, and possibly insane. They may also be humanity's last hope for survival in a war that has raged beyond eternity.

An anthology of fantasy tales featuring feline heroes and heroines includes twenty-four new stories by such authors as Mercedes Lackey, David Drake, Barry Longyear, Lawrence Watt-Evans, and Andre Norton

Adults are becoming increasingly worried that society's young people are being subjected to premature sexualization by the media and the environment around them. This title explores the ideas of sexualization, the impact of porn, and much more. It also asks what part parents have to play in these issues.
