The IAVSD Symposium is the leading international conference in the field of ground vehicle dynamics, bringing together scientists and engineers from academia and industry. The biennial IAVSD symposia have been held in internationally renowned locations. In 2015 the 24th Symposium of the International Association for Vehicle System Dynamics (IAVSD) was held in Graz, Austria, from 17th to 21st of August 2015. The symposium was hosted by VIRTUAL VEHICLE Research Center, in cooperation with the Graz and Vienna Universities of Technology, and the industrial partners AVL, Magna Steyr, and Siemens. 170 papers (oral and poster presentations) were presented at the symposium and the papers are now published in these proceedings. The papers review the latest research developments and practical applications in highly relevant areas of vehicle dynamics on roads and tracks, and may serve as a reference for researchers and engineers active in the field of vehicle system dynamics.

Immerse yourself in this complete guide on Lamborghini's ultimate performance cars. Nearly 50 years ago, upstart high-end sports car manufacturer Lamborghini set the performance car world on its ear with its stunning supercar, the Miura. Wrapped in a svelte Marcello Gandini - designed body and powered by a 350-horsepower V-12, the Miura instantly made every other car look antiquated. In 1974, Lamborghini again shocked the automotive world with the mad Countach (an Italian expression one might utter at the sight of a beautiful woman), another Gandini masterpiece. Wide, low, and menacing, the original Countach completely recalibrated the supercar template. The Diablo replaced the Countach in 1990 and was the last of the Lamborghini supercars under the auspices of the "original" company. Audi acquired the company in 1997 and would bring significant German efficiency to bear, turning out supercars to a new template: the Murielago in 2001, the Gallardo in 2003, the Reventon in 2008, the Aventador in 2011, and, most recently, the appropriately named Huracan. Each one is an ultimate car. Many were collector vehicles from the moment they rolled off the production line. Beneath their stunning bodywork lie chassis and powerplants bristling with the best technology of their respective eras. Lamborghini's latest supercars zip from 0 to 60 miles per hour in under 3 seconds and hit top speeds in excess of 220 miles per hour. Their prices are equally staggering. Lamborghini Supercars 50 Years is devoted exclusively to all of Lamborghini's ultimate performance cars. No enthusiast of these world-class sports cars will

A story of true drive – now the topic of a major documentary Founded in 1977 by Sir Frank Williams and Patrick Head, Williams F1 represents the last of the true independent teams; a company devoid of corporate dogma and run by enthusiasts driven by a love of racing and the satisfaction that comes with beating the rest of the world. Since its first Grand Prix victory at Silverstone on 14 July 1979, the team has won a further 116 GPs, delivered seven World Champions - among them Nigel Mansell and Damon Hill - and won nine Constructors Championships. This is the definitive history of the Williams team as told by those who have worked for Williams past and present. At the heart of the book are Sir Frank's personal recollections, along with memories and anecdotes from those at every level: from the shop floor to the upper strata of management; from the mechanics and machinists to the drivers - Mansell, Hill, Alain Prost and Alan Jones among them. It relates both the incredible highs of winning against the odds while never shying the terrible lows - the tragic deaths of Piers Courage in 1970 and Ayrton Senna in 1994 among them. Conveying the history and soul of a unique band of people, Williams F1 explains exactly why the Williams team is held in more affection than any other team in Britain, if not the world.

Featuring previously unpublished rare photographs, this book provides a full history of Britain's only street circuit racing event - the Birmingham SuperPrix.
