Note: On any OptiPlex built since 2012 (i.e., 7010/9010/9010 AIO), Dell has stopped using all beep codes except for the Memory Failure code. (1, 3, 2, or 1 beep, then 3 beeps, then 2 beeps.) If your system was built after 2012 and is making any other beep code, please contact technical support for further help.

Introduction to Beep Codes. Dell has a long tradition of building diagnostic indicators into our systems. These indicators can be really useful in helping to diagnose and resolve any issues your PC might experience whilst starting up. I've given a guide to the various codes for each family of desktop below.
