These are 5x7 in sheets with a semi-transparent label in the center. You print the mirrored image of your label on the back side of the sheet with any inkjet printer. Then peel the label off, apply to the disc using the supplied applicator, press down, and the label sticks to the disc (due to adhesive rings in the hub area and around the outer edge).

The Ways of Labeling Discs | Swift Publisher
The HP Lightscribe drive cleverly changes the way the burner drives the laser to let it create a silkscreen-quality image on the "flip" (label) side of special, compatible discs. Since Verbatim helped develop the process, you can count on us to offer Lightscribe media for use with those drives. Print Directly on the Disc

How to draw floppy disk
You don't use "/disk", you use the direction in which the drive is attached. If you want to label a floppy inserted into a drive on the left side of the computer with the name "foobar", use "label left foobar". #3 TheTalon

How Do I Label A Floppy? - ComputerCraft | Programmable ...
The easiest way to label a CD-R is to whip out that permanent marker and write directly on the disc. It's also a great way to assure that the disc won't be readable later on. The damage won't happen today, or even next month, but at some point the ink will leach into the reflective layer of the disc and it'll be the end of your data.

Using permanent ink markers on CDs & DVDs
To label used bottles that would otherwise go to waste, "tuenhidiy" created a CNC plotter that itself consists mostly of scraps!. The machine's X and Z axes are formed out of a pair of old CD/DVD players, but instead of a traditional Y axis, it actuates two printer rollers to turn a bottle forwards or backwards.
