Profiles the first Hispanic American woman to go into space, describing her first journey as a mission specialist on the space shuttle Discovery and subsequent missions to deliver supplies to the International Space Station.

When Ellen Ochoa was young, male American astronauts walked on the moon. But girls were not allowed to be astronauts. Girls didn't often study science either—but Ochoa didn't let that stop her. In high school, Ochoa loved math and science. In college, she studied physics and engineering, and later she became a scientist and inventor. Eventually NASA began accepting women into their astronaut training program. While there, Ochoa developed technology, became the first female Hispanic American astronaut, and logged 1,000 hours in outer space. Learn about Ochoa's hard work and perseverance on her journey toward becoming a scientist, inventor, and astronaut.

If you have a mission, a dream to explore, but no one like you has achieved it before... Meet Dr. Ellen Ochoa--a determined space pioneer with a stellar symphony of talents. Growing up in a family of immigrants, Ellen dreamed of becoming a professional flutist, but all of that changed when she discovered engineering in college. Though she was told that field of study wasn't for girls, the bright young scientist refused to give up--ultimately becoming a NASA astronaut who shattered barriers and rocketed to success!
