Employment Law Dissertation Topics Employment law is another broad area of legal practice that focuses on employer-employee relationships. If a business has several employees (more than one), it is likely to apply employment law in one area or another.

There is much to understand about employment discrimination law as a social system. What drives the growing trend toward litigation? To what extent does discrimination persist and why does it vary by organizational and market context? How do different groups perceive discrimination and what, if anything, do they do about it? How do employers respond to discrimination law? What is the effect of broader political and legal currents? What is the relationship between anti-discrimination law and social inequality? This book presents answers, from a distinguished group of scholars, and social scientists, offering a broad reconsideration of employment discrimination and its treatment in law.

Wachter and Estlund have assembled a feast on the economic analysis of issues in labor and employment law for scholars and policy-makers. The volume begins with foundational discussions of the economic analysis of the individual employment relationship and collective bargaining. It then progresses to discussions of the theoretical and empirical work on a wide range of important labor and employment law topics including: union organizing and employee choice, the impact of unions on firm and economic performance, the impact of unions on the enforcement of legal rights, just cause for dismissal, covenants not to compete and employment discrimination. Anyone who wants to study what economists have to say on these topics would do well to begin with this collection. Kenneth G. Dau-Schmidt, Indiana University Bloomington School of Law, US This Research Handbook assembles the original work of leading legal and economic scholars, working in a variety of traditions and methodologies, on the economic analysis of labor and employment law. In addition to surveying the current state of the art on the economics of labor markets and employment relations, the volume's 16 chapters assess aspects of traditional labor law and union organizing, the law governing the employment contract and termination of employment, employment discrimination and other employer mandates, restrictions on employee mobility, and the forum and remedies for labor and employment claims. Comprising a variety of approaches, the Research Handbook on the Economics of Labor and Employment Law will appeal to legal scholars in labor and employment law, industrial relations scholars and labor economists.

Legal rules governing the employer-employee relationship are many and varied. Economic analysis has illuminated both the efficiency and the effects on employee welfare of such rules, as described in this paper. Topics addressed include workplace safety mandates, compensation systems for workplace injuries, privacy protection in the workplace, employee fringe benefits mandates, targeted mandates such as medical and family leave, wrongful discharge laws, unemployment insurance systems, minimum wage rules, and rules requiring that employees receive overtime pay. Both economic theory and empirical evidence are considered.

On October 14, 1998, the Center for Labor and Employment law at New York University School of Law sponsored its first and "working paper and" workshop. The evening program was hosted by Samuel Estreicher, Professor of Law at NYU and Director of the Center. He welcomed Professor Morris Kleiner of the Humphrey Institute and Industrial Relations Center at the University of Minnesota and the National Bureau of Economic Research. Professor Kleiner presented the results of a study he conducted with Richard Freeman of Harvard University, the National Bureau of Economic Research, and the Centre of Economic Performance at the London School of Economics. Professor and's Kleiner and's paper appears as Chapter 1 of this volume. In each month during the remainder of 1998 and in each month during the

successive academic years, the Center has sponsored similar workshops. This volume contains the papers presented during workshops held in 1998 and 1999. The collection is diverse, reflective of the breadth of the scholarly work being done in the dynamic field of labor and employment law. Affirmative action, the and“white-collarand” exemptions from the overtime provisions of the Fair Labor Standards Act, sexual harassment law, the Americans with Disabilities Act, agreements to arbitrate statutory employment claims, unemployment compensation law, and the law of collective bargaining are the various topics discussed in these papers. The authorsand’ approaches are similarly diverse. Doctrinal, historical, empirical, economic, and comparative tools are all employed. And the authors are themselves varies group, visiting NYU to present their papers from law schools across the country.
