these concepts on the job. Be better prepared to deal with the multitude of issues that arise in the practice of healthcare finance.

"Health Economics is a required course in almost every graduate program in Health Admin, though there are health econ courses (often electives) across disciplines; for example, public health, respiratory care, pharmacy, and nursing. Because of the role economics plays in finance and policy, it can also be adopted in those courses. This book is not discipline-specific, so it covers a wide breadth"--
