~~Mercury Marine~~

Mercury MerCruiser is world-renowned for creating innovations that provide boaters the best experiences on the water. From our pioneering sterndrive propulsion introduced at the Chicago Boat Show more than a half-century ago to today's joystick controls that give boaters the confidence and ability to pilot the boat of their dreams even under extreme conditions, Mercury MerCruiser is the undisputed leader in marine power and technology.

The Mercury MerCruiser 6.2L offers exceptional fuel efficiency. Wide band oxygen sensors continuously monitor oxygen levels, which enables the engine control module to deliver precisely the correct amount of fuel. The result is fuel economy that stretches your boat's range and your dollar.

~~Mercury® MerCruiser®
Inboards | Mercury Marine~~
Mercury's Engine Guardian continually monitors critical sensors for any sign of a problem and immediately takes action, while the water-cooled Cool Fuel delivery system on the 8.2L Inboard engine prevents

vapor lock. Rugged construction, including stainless-steel exhaust, ensures long-term, hassle-free operation.

~~Mercury® MerCruiser®
Inboards | Mercury Marine
MerCruiser Sterndrive or
Inboard-Outboard Engines
(IOs) A MerCruiser
sterndrive is essentially a
car or truck style engine
mounted inside the boat,
lower in the hull. The
engine is then connected
through the transom, or back
of the boat, to an outdrive
unit that hangs down below
the boat's bottom.~~

As an example, the

Download Ebook Mercury Mercruiser Marine Engine

MerCruiser 4.2 litre or the MD706 range of marine engines can easily take around 50 - 65 hours to completely recondition including checking the coolers and heat exchangers. Because of the amount of time required to repair these engines, a lot of boat owners and boatyards prefer to entrust the work to a specialised Mercruiser repairer such as the VM Diesel Specialist.
