Using big data analytics, this research covers top Chinese home appliance brands, including electric fan, air purifier, and vacuum cleaner, with following analysis dimensions: brand ranking by the number of items available on online stores, ranking by sales, number of times online users mention about a particular brand, brand preferences, factors affecting purchase, as well as online shoppers' comments and user analysis. All those dimensions help build a massive social media database which can more accurately reflect consumer needs in China.

Integrating important elements of color theory, practice, and application, this comprehensive designer's reference explores a broad spectrum of issues in graphic design in both print and digital media, covering such topics as historical color systems, color in art, the psychology of color, color and interior design, digital rendering, and more, all enhanced with more than one thousand color images. Original. 15,000 first printing.

Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews.

In early 2020, few Indians watching the COVID-19 pandemic unfold globally may have thought about it spreading across India. As the COVID-19 cases started rising, the Indian government declared a 3-week lockdown in March 2020 and followed it up with four more over the next six months. India had the most stringent lockdown globally for most of 2020 and this book looks closely at the lives of Indians during that year. In 2020, video calling apps enabled people to interact professionally and personally and became the biggest saviors. Shopping became an expedition and exercising an adventure as the Indian lockdown did not allow most outdoor activities. The author heard the world's loudest insect in his community when the lockdown stopped all activity. This book documents many such wondrous natural phenomena that the author observed when nature was in free flow in absence of human interference. The author's kaleidoscopic coverage paints a fascinating picture of his life in a pandemic year. In a year that saw postponement of the Olympics by a year, a race was on to develop a COVID-19 vaccine with more than 100 vaccine candidates in line for use in 2021. My Life in a Pandemic is a great chronicle of

the 21st century's first pandemic that dramatically reshaped human history.

This report reveals the importance of polymer selection and lists those most commonly used with typical applications and major suppliers. It discusses major European markets, mergers and acquisitions, future trends and provides industry profiles.

Now in its seventh edition, *Managing Innovation: Integrating Technological, Market and Organizational Change* enables graduate and undergraduate students to develop the unique skill set and the foundational knowledge required to successfully manage innovation, technology, and new product development. This bestselling text has been fully updated with new data, new methods, and new concepts while still retaining its holistic approach the subject. The text provides an integrated, evidence-based methodology to innovation management that is supported by the latest academic research and the authors' extensive experience in real-world management practice. Students are provided with an impressive range of learning tools—including numerous case studies, illustrative examples, discussion questions, and key information boxes—to help them explore the innovation process and its relation to the markets, technology, and the organization. "Research Notes" examine the latest evidence and topics in the field, while "Views from the Front Line" offer insights from practicing innovation managers and connect the covered material to actual experiences and challenges. Throughout the text, students are encouraged to apply their knowledge and critical thinking skills to business model innovation, creativity, entrepreneurship, service innovation, and many more current and emerging approaches and practices.

Jugaad is a word often heard in general conversation in India. Whether to find ingenious solutions to problems or turn adversity into opportunity—Indians swear by it. In this seminal book, Navi Radjou, Jaideep Prabhu, and Simone Ahuja challenge the very way a traditional organization thinks and acts. Leading companies such as Facebook, Future Group, GE, Google, PepsiCo, Philips, Renault-Nissan, Siemens, Suzlon, Tata Group, and YES BANK, among others, are already practising jugaad to generate original ideas and pioneer growth. In the midst of rising global competition and swelling R&D budgets, Jugaad Innovation presents ways to innovate, be flexible, and do more with less. Peppered with examples of innovative entrepreneurs in emerging markets such as Africa, India, China, and Brazil, Jugaad Innovation illuminates paths to engender breakthrough growth in a complex and resource-scarce world.
