This book sets out to explore the way, with the onset of a new and integral relationship between text and image, the modern poster is able to evolve distinctive persuasive strategies that will transform modern advertising. The book shows how

## Access Free Poetics Of The Poster The Rhetoric Of Image Text Contemporary French And Francophone Cultures

this fundamental development is closely related to contemporary developments in the visual arts - in particular Futurism and Art Deco - and reflects the increasing cross-fertilisation and symbiosis between art and graphic design. The book focuses in particular on the way conventional textual strategies - metaphor, metonymy, rebus - are adapted by the modern poster to produce visual or textual/visual equivalents which, through their employment of combined pictorial and linguistic elements maximise their attractive or persuasive power over the viewer/reader. A key aim of the book is to clarify the assumptions on which semiology (the study of signs) is based in the context of modern poster artists' practice. The text/image relation is explored through five chapters focussing on (1) the rhetoric of image/text in general; (2) text and image in airline logos: British Airways and Air France; (3) visual metonymies in boxing posters; (4) text and image in posters expressing speed; (5) text/image in Swiss tourist posters. There are approximately 120 colour illustrations arranged in groups that reflect the different orientations of the chapters.

The Poster: Art, Advertising, Design, and Collecting, 1860s-1900s is a cultural history that situates the poster at the crossroads of art, design, advertising, and collecting. Though international in scope, the book focuses especially on France and

## Access Free Poetics Of The Poster The Rhetoric Of Image Text Contemporary French And Francophone Cultures

England. Ruth E. Iskin argues that the avant-garde poster and the original art print played an important role in the development of a modernist language of art in the 1890s, as well as in the adaptation of art to an era of mass media. She moreover contends that this new form of visual communication fundamentally redefined relations between word and image: poster designers embedded words within the graphic, rather than using images to illustrate a text. Posters had to function as effective advertising in the hectic environment of the urban street. Even though initially commissioned as advertisements, they were soon coveted by collectors. Iskin introduces readers to the late nineteenth-century *Òiconophile*—a new type of collector/curator/archivist who discovered in poster collecting an ephemeral archaeology of modernity. Bridging the separation between the fields of art, design, advertising, and collecting, Iskin's insightful study proposes that the poster played a constitutive role in the modern culture of spectacle. This stunningly illustrated book will appeal to art historians and students of visual culture, as well as social and cultural history, media, design, and advertising.

From band posters stapled to telephone poles to the advertisements hanging at bus shelters to the inspirational prints that adorn office walls, posters surround us everywhere—but do we know how they began? Telling the story of this ephemeral art form, Elizabeth E. Guffey reexamines the poster's roots in the nineteenth century and explores the relevance they still possess in the age of digital media. Even in our world of social media and electronic devices, she argues, few forms of graphic design

## Access Free Poetics Of The Poster The Rhetoric Of Image Text Contemporary French And Francophone Cultures

can rival posters for sheer spatial presence, and they provide new opportunities to communicate across public spaces in cities around the globe. Guffey charts the rise of the poster from the revolutionary lithographs that papered nineteenth-century London and Paris to twentieth-century works of propaganda, advertising, pop culture, and protest. Examining contemporary examples, she discusses Palestinian martyr posters and West African posters that describe voodoo activities or Internet con men, stopping along the way to uncover a rich variety of posters from the Soviet Union, China, the United States, and more. Featuring 150 stunning images, this illuminating book delivers a fresh look at the poster and offers revealing insights into the designs and practices of our twenty-first-century world.

This book studies design in airline travel posters of the 1920-1970 period. It is both a semiology and a socio-cultural history that explores the way advertising posters combine information and fantasy to create seductive images/texts. The book is lavishly illustrated in colour, the images constituting part of the overall argument.

Brighten your classroom with 10 full-color poetry posters, one for each month of the school year! Each poster features a kid-pleasing poem from a favorite poet—and an opportunity to build vocabulary, develop an awareness of rhyme and rhythm, and enjoy word play. You ' ll also find a teaching guide with fresh and fun activities and reproducibles that build literacy and help kids get the most from each poster. Great for bulletin boards! For use with Grades K-3.

## Access Free Poetics Of The Poster The Rhetoric Of Image Text Contemporary French And Francophone Cultures

This book offers a discussion of the poetics of the outstanding post-1945 British poet Philip Larkin, providing evidence that Larkin ' s principles of writing poetry form a logically organized system.

Rolfe Humphries (1894-1969), in addition to being an outstanding poet, left an impressive trail as a translator, teacher, critic, and editor. But, as Richard Gillman maintains in the introduction to this volume, poetry was the driving force behind these other special skills and interests. Humphries was, Gillman writes, an example of "the total poet. . . . If ever there were poets who did in fact breathe their art, he was one of them." These letters for the first time illumine Humphries and his achievements. We see him as the mentor to younger poets including Theodore Roethke, providing rare glimpses of poetics and the creative process; the teacher so charmed by horseracing he sometimes "put an exam on the blackboard . . . and then bugged out for the track"; the "literary terrorist" whose criticism Robert Frost never forgot and probably never forgave him for; the translator whose Aeneid prompted W. H. Auden to call it "a service for which no public reward could be too great"; the author of an introduction to Ezra Pound's poems who demanded that a reference to his anti-Semitism be deleted. And so on and on, in all of Humphries' surprising variety and unflinching candor. Active in America's literary community, Humphries was

## Access Free Poetics Of The Poster The Rhetoric Of Image Text Contemporary French And Francophone Cultures

a friend of many poets and writers, including Louise Bogan, Edmund Wilson, and Roethke. This volume takes on added meaning by completing the published account of the relationships of these four as already told by Roethke, Bogan, and, to a lesser extent, Wilson. Poets, Poetics, and Politics is set in a period that opened just two years before the birth of Harriet Monroe's Poetry; when it closed, most of the twentieth century's literary giants had died. Also in this time, many writers, Humphries included, dreamed the dreams of communism; his letters on this subject are both informative and absorbing.
