Study Guide and Reinforcement Worksheets allow for differentiated instruction through a wide range of question formats. There are worksheets and study tools for each section of the text that help teachers track students' progress toward understanding concepts. Guided Reading Activities help students identify and comprehend the important information in each chapter.

The guide offers clearly defined learning objectives, summaries of key concepts, references to Life and to the student Web/CD-ROM, and review and exam-style self-test questions with answers and explanations.

The Study Guide and Workbook provides a significant review and reinforcement tool to aid students in mastering their knowledge of the human skeleton, articulations, body motions, and the innervations and actions of individual and functional groups of muscles. Designed to accompany An Illustrated Atlas of the Skeletal Muscles 3rd edition by Bowden/Bowden as an additional study tool, it also provides all health professions and life science students an effective self-study guide on these topics.
