instead of attention-stealing ads and spammy email funnels. No matter what your product or service, this book will help you reframe how it's presented to the world, in order to meaningfully connect with people who want it. Seth employs his signature blend of insight, observation, and memorable examples to teach you: \* How to build trust and permission with your target market. \* The art of positioning--deciding not only who it's for, but who it's not for. \* Why the best way to achieve your goals is to help others become who they want to be. \* Why the old approaches to advertising and branding no longer work. \* The surprising role of tension in any decision to buy (or not). \* How marketing is at its core about the stories we tell ourselves about our social status. Design After Modernity, monograph edition of DIID (Design Industriale/Industrial Design), introduces a series of reflections on modernity and its relation to the issues of design planning. It therefore opens the debate on the reorganisation and new articulations of our time, beyond the nostalgia for a past that can become a shelter, and to escape from an uncertain future, that can become a threat. Following the times of great collective projects, the idea of progress is

more and more private in this omnivorous present. Which is the project's destiny in a time of refusal of the progressive development of history? If designing the artificial is one representation of our material culture, which are the forms that a collective project can still interpret? Will design be able to rebuild a collective idea of the future? 180 colour images

Last summer, three very different girls—wild Murphy, perfect Leeda, and shy Birdie—etched their initials on a Magnolia tree at Darlington Peach Orchard to symbolize that they're friendship will last forever. But can it survive the less-than-peachy year ahead? Murphy, more in love with Rex than ever, is torn between her big-city dreams and following her heart . . . all the way

across the railroad tracks and into Rex's arms. Leeda, nominated to be Bridgewater's Pecan Queen, basks in the rose-scented glow of her Ice Queen mother's sudden affection—until her sister, the princess, returns. Birdie, happy for the first time, wants nothing more than to make time stand still. Too bad everything is changing, whether she likes it or not. The sweet trio of Georgia girls that made Peaches a national bestseller returns in this delicious and satisfying sequel. This year, Murphy, Leeda, and Birdie discover that bitter endings can lead to sweet new beginnings . . . and that the orchard that brought them together will always be a part of them—even if they leave it behind.
