"There was no writer like him. . . prophetic assurance mixed with surrealistic humour and hard-edged social satire: a unique combination" (Arthur Miller) This volume brings together fresh new translations of four of his most popular plays, more than ever relevant today. In R. U. R., the Robot - an idea Capek was the first to invent - gradually takes over all aspects of human existence except procreation; The Insect Play is a satirical fable in which beetles, butterflies and ants give dramatic form to different philosophies of life; The Makropulos Case is a fantasy about human mortality, finally celebrating the average lifespan; The White Plague is a savage and anguished satire against fascist dictatorship and the virus of inhumanity.

One of Wired's Twenty-Five All-Time Favorite Books Critically acclaimed author Kai Ashante Wilson makes his commercial debut with this striking, wondrous tale of gods and mortals, magic and steel, and life and death that will reshape how you look at sword and sorcery. Since leaving his homeland, the earthbound demigod Demane has been labeled a sorcerer. With his ancestors' artifacts in hand, the Sorcerer follows the Captain, a beautiful man with song for a voice and hair that drinks the sunlight. The two of them are the descendants of the gods who abandoned the Earth for Heaven, and they will need all the gifts those divine ancestors left to them to keep their caravan brothers alive. The one safe road between the northern oasis and southern kingdom is stalked by a necromantic terror. Demane may have to master his wild powers and trade humanity for godhood if he is to keep his brothers and his beloved captain alive. "Two stage plays, translated from the Czech, both originally published in 1920. R.U.R is an early science fiction play about the Robots, created by scientists, revolting and taking over the world. The word Robot first appeared in this work and was since adopted universally. The robber is a romantic comedy/drama, about a young adventurer infatuated an elderly professor's daughter and taking over all his possessions. The play is set in a small Bohemian village."--Provided by publisher.

Playful and provocative, irreverent and inspiring, Capek is perhaps the best-loved Czech writer of all time. Novelist and playwright, famed for inventing the word 'robot' in his play RUR, Capek was a vital part of the burgeoning artistic scene of Czechoslovakia of the 1920s and 30s. But it is in his journalism - his brief, sparky and delightful columns - that Capek can be found at his most succinct, direct and appealing. This selection of Capek's writing, translated into English for the first time, contains his essential ideas. The pieces are animated by his passion for the ordinary and the everyday - from laundry to toothache, from cats to cleaning windows - his love of language, his lyrical observations of the world and above all his humanism, his belief in people. His letters to his wife Olga, also published here, are extraordinarily moving and beautifully distinct from his other writings. Uplifting, enjoyable and endlessly wise, *Believe in People* is a collection to treasure.
