The end to end all ends: The epic finale to the NEW YORK TIMES bestselling TUNNELS series! Total Termination of the English: The Styx and their lethal cohorts of Armagi will settle for nothing less. Not even the mighty US military is strong enough to stop the assault! Will and Elliott flee back underground, down to the innards of the Earth first mapped in DEEPER and FREEFALL. With the support of a small team that survived the plague of New Germania, they discover a secret at the site of the

three core pyramids. A secret that may explain not only where the Styx came from, but the human race, too. Can Elliott, with her mixed blood, unlock the clues before Earth itself spins out of orbit? All the many threads of the prior TUNNELS books come together in this epic conclusion!

Fourteen-year-old Will doesn't think he has much in common with his family. Nothing, that is, except a strange passion for digging which he shares with his father. But one day, Will's dad mysteriously vanishes down a tunnel - part of London's vast, labyrinthine underground system. With his friend Chester, Will decides to investigate. But soon the boys find themselves deep in darkness, unearthing a terrifying secret which may cost them their lives... This

riveting bestseller oozes the mysterious fascination of the underground and all its hideous possibilities. Creepy, tantalising and original, it's full of thrills to keep you burrowing in!

First came Tunnels, then Deeper. Now Will's in Freefall. What will he find when he hits the ground? As Will plummets down a subterranean void, it looks like the end for him. But it's just the beginning of a frightening new adventure in which he must face giant carnivorous spiders and the deadly Brights. And, even worse, two evil twins with a score to settle! But as the dark mysteries of the deep unfold, they not only reveal artifacts from ancient civilisations, but clues to a lost land at the end of the Earth... The terrifying third book in the mega-

selling Tunnels series.

At the centre of the Earth, in a world that no-one knows exists, Will is in trouble. His enemy, the Styx, are on his tail, ready to pursue him to the ends of the world - any world. Death has never been closer... Meanwhile Drake - with help from the unlikeliest of allies - is preparing to fight the Styx from above. But will his daring plan lead him closer to victory - or into certain disaster? Praise for Tunnels: "It's well paced, exciting and - in places - frightening and bloody." Philip Ardagh, Guardian "Does it live up to the hype? Yes." Daily Express

Spinning out of control! Just when you thought it couldn't get any deeper, darker, or weirder... Creeping into the open through cracks in the earth, the

Styx have surfaced, and are now infesting England like some parasitic scourge -- carriers of a bizarre black secret that will place every last Topsoiler in mortal peril. Unless Will Burrows puts a stop to the propagation. Armed to the teeth, with little more than a motley crew of former commandos as reinforcements, can Will, Chester, and Elliott find a way to squash the threat? Or will they only find themselves in a deadly downward SPIRAL?

The gripping sequel to Tunnels. Will is going deeper under the earth. Deeper into horror, heat and darkness. Every step takes him deeper into mystery. Deeper into terrible danger... As Will, Cal and Chester venture ever further into the Deeps, they enter a place where those banished from the

Colony stand almost no chance of survival. Battling heat and deadly prehistoric creatures, they tunnel through caves and deserts - but are they any closer to finding Will's father? And now that the Styx are on their tail, what chance do they have of completing their foolhardy mission?

Shortlisted for the Financial Times and McKinsey Best Book of the Year Award in 2011 “ A masterpiece. ” —Steven D. Levitt, coauthor of Freakonomics “ Bursting with insights. ” —The New York Times Book Review A pioneering urban economist presents a myth-shattering look at the majesty and greatness of cities America is an urban nation, yet cities get a bad rap: they're dirty, poor, unhealthy, environmentally unfriendly . . . or are they? In this revelatory

book, Edward Glaeser, a leading urban economist, declares that cities are actually the healthiest, greenest, and richest (in both cultural and economic terms) places to live. He travels through history and around the globe to reveal the hidden workings of cities and how they bring out the best in humankind. Using intrepid reportage, keen analysis, and cogent argument, Glaeser makes an urgent, eloquent case for the city's importance and splendor, offering inspiring proof that the city is humanity's greatest creation and our best hope for the future.

Street Journal • Financial Times In *The Power of Habit*, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, *The Power of Habit* contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and

Time is running out for fourteen year-old Sam. He suffers from a rare inherited condition that caused terrible disfigurement to his great-grandfather and although it skipped the next two generations, it's come back with a vengeance in him. Sam's parents try to ensure he leads as normal a life as possible, but a normal life is difficult when your flesh and bones mutiny and bubble up into horrific growths, and pressure on your brain causes searing migraines. Then the very worst happens, but all is not lost for Sam.
