Horticulture Definition Horticulture is the field of study which concentrates on gardening, and the plants and biological systems which make up a garden. Horticulture is a broad science which has many sub-disciplines. Horticulture studies both the science behind the garden and the aesthetics which make it appealing to look at.

~~The Biology of Horticulture: An Introductory Textbook ...~~

Horticulture is one of the important sectors of agriculture, which consists of fruits, flowers, vegetables, spices, tuber crops, mushrooms, bamboo, plantation crops, and medicinal and aromatic plants (Sonah et al., 2011). Biotechnological tools have revolutionized conventional plant breeding methods by providing new genotypes for breeding purposes,
