The Philosopher's Stone: Alchemy and the Secret Research ...

Philosopher's stone, in Western alchemy, an unknown substance, also called "the tincture" or "the powder," sought by alchemists for its supposed ability to transform base metals into precious ones, especially gold and silver. Alchemists also believed that an elixir of life could be derived from it.

philosopher's stone | History & Facts | Britannica

The philosopher's stone, more properly philosophers' stone or stone of the philosophers is a legendary alchemical substance capable of turning base metals such as mercury into gold or silver. It is also called the elixir of life, useful for rejuvenation and for achieving immortality; for many centuries, it was the most sought goal in alchemy. The philosophers' stone was the central symbol of the mystical terminology of alchemy, symbolizing perfection at its finest, enlightenment, and heavenly bl

Philosopher's stone - Wikipedia

According to legend, the philosopher's stone was a substance that could turn ordinary metals such as iron, tin, lead, zinc, nickel or copper into precious metals like gold and silver. It also acted...

What was the philosopher's stone? - HISTORY

This theory was to pervade Islamic and medieval alchemy for centuries, overriding the correct postulations of the atomists. In addition, Aristotle's implications that compounds were not permanent and could be changed fuelled the quest for the Philosopher's Stone and converting base metals into gold.

The Alchemy of Freedom: The Philosophers' Stone and the ...

The Stone, for the alchemists, was a magical force or power which, after a time, was available to the one who seeks it. Conversely, it is said that you need the Stone to begin with. One could thus say that the Stone is present at the both the beginning and end of the work. But this is – admittedly – yet more obscurity.

What Is The Philosopher's Stone? An Alchemical Fable

The philosopher's stone is a legendary substance, allegedly capable of turning inexpensive metals into gold. It was sometimes believed to be an elixir of life, useful for rejuvenation and possibly for achieving immortality. For a long time, it was the most sought-after goal in Western alchemy.

Philosophers Stone, Alchemy - Crystalinks

Newton's writings suggest that one of the main goals of his alchemy may have been the discovery of the philosopher's stone (a material believed to turn base metals into gold), and perhaps to a lesser extent, the discovery of the highly coveted Elixir of Life. Newton reportedly believed that a Diana's Tree, an alchemical demonstration producing a dendritic "growth" of silver from solution, was ...
