There are wars so quiet that they aren’t even heard beyond the borders of the countries in which they are happening. In Iran, the U.S. is waging medical warfare: what foreign minister Javad Zarif has called medical terrorism. Iran is being crushed by the COVID-19 virus, and the weight of the pandemic is being intensified by US sanctions that ...

And there have been other forms of quiet wars. The re-imposition of sanctions on Iran has been a modern version of a medieval siege. The US was legally bound to honor its commitments under the Joint Comprehensive Plan of Action nuclear agreement, including ending sanctions, as long as Iran was honoring all of its commitments.

THE QUIET WAR

Following the death of her father, a teenage Dot moves into the home of her godparents and their teenage daughter Nina. Dot arrives wrapped up in the silence of being deaf. She finds a different kind of silence waiting for her in her new home, for this home is a place with a dark secret involving Nina and her father.

The Quiet (2005) - IMDb

The Quiet War is certainly what is advertised in the title: a war so quiet, no one knows it is happening. Not even me. It’s the future. The not-so-distant but not-quite-near twenty-third century. No warp drive or United Federation of Planets, though. In fact, we can barely colonize the solar system without squabbling about it.
