Set in the sixties, it is undeniably "old school" – a twisted tale of murder, treachery and double-dealing, based on the novel by Patricia Highsmith, where you half expect Alfred Hitchcock to appear in cameo at some point.

~~The Two Faces of January (2014) – IMDb~~

The Two Faces of January is a 2014 American-British- French thriller film written and directed by Hossein Amini, in his directorial debut. It is based on Patricia Highsmith 's 1964 novel The Two Faces of January and stars Viggo Mortensen, Kirsten Dunst and Oscar Isaac. Filming took place on location in Greece and Turkey, and at Ealing Studios.

In " The Two Faces of January, " Viggo Mortensen wields a cigarette with the authority of Bette Davis and all the other great smokers of studio-era Hollywood. Gazing from under heavy-lidded eyes and a hat brim pulled low, Mortensen looks like a relic from that era, and cinematographer Marcel Zyskind lights him as such.

~~The Two Faces of January – IMDb~~

" [A] classic psychological thriller. " —USA Today Originally published in 1964, and the winner of the CWA Best Foreign Novel Award, Patricia Highsmith ' s The Two Faces of January is a chilling tale of suspense, suffused with her trademark slow, creeping unease. In a grubby Athens hotel, Rydal Keener is bored and killing time with petty scams. But when he runs into another American, Chester MacFarland, dragging a man ' s body down the hotel hall, Rydan impulsively agrees to help, perhaps because Chester looks like his father. Then Rydal meets Collete, Chester ' s younger wife, and captivated, becomes entangled in their sordid lives, as the drama marches to a shocking climax at the ruins of the labyrinth at Knossos. A film version of The Two Faces of January, starring Viggo Mortensen, Kirsten Dunst, and Oscar Isaac (Drive, Inside Llewelyn Davis) is in production. Adapted by Academy Award nominee Hossein Amini (Drive), and produced by Working Title and Timnick Films (The Talented Mr. Ripley), it will be released later this fall. " An offbeat, provocative and absorbing suspense novel. " —The New York Times " Patricia Highsmith is one of the few suspense writers whose work transcends genre. " —The Austin American-Statesman

By the bestselling author of The Talented Mr Ripley, Carol and Strangers on a Train Now a major motion picture starring Viggo Mortenson and Kirsten Dunst. 'Highsmith is a giant of the genre. The original, the best, the gloriously twisted Queen of Suspense' Mark Billingham Two men meet in the picturesque backstreets of Athens. Chester MacFarlane is a conman with multiple false identities, near the end of his rope and on the run with his young wife Colette. Rydal Keener is a young drifter looking for adventure: he finds it in one evening as the law catches up to Chester and Colette, and their fates become fatally entwined. Patricia Highsmith draws us deep into a cross-European game of cat and mouse in this masterpiece of suspense from the author of The Talented Mr Ripley.

What will you do, when you wake up with no memory, a new face, and discover you have a family you don't recognize? Anjali Mehta has to piece together her life after a terrible accident. Her husband is cold and indifferent towards her. Will she be able to convince him that she is not a manipulative and selfish person? How will she handle the attraction between them? Will her life be the same again if she gets her memory back? Ashish Mehta, an aloof and handsome businessman, has given up on love and wants no second chances with his estranged wife. Why does he then feel compelled to help her? Are the changes he sees in her real, or is it all an act? Can he turn away from his attraction to her? How long can he hold the secret he carries from her? An unexpected twist throws them in jeopardy. Will they be able to fight the danger they face? Two Faces of a Coin is the journey of Anjali and Ashish, as they struggle with both their past and present to define their future together.

This is a sweeping new interpretation of the national experience, reconceiving key political events from the Revolution to the New Deal. Rana begins by emphasizing that the national founding was first and foremost an experiment in settler colonization. For American settlers, internal self-government involved a unique vision of freedom, which combined direct political participation with economic independence. However, this independence was based on ideas of extensive land ownership which helped to sustain both territorial conquest and the subordination of slaves and native peoples. At the close of the nineteenth century, emerging social movements struggled to liberate the potential of self-rule from these oppressive and exclusionary features. These efforts ultimately collapsed, in large part because white settlers failed to conceive of liberty as a truly universal aspiration. The consequence was the rise of new modes of political authority that presented national and economic security as society ' s guiding commitments. Rana contends that the challenge for today ' s reformers is to recover a robust notion of independence and participation from the settler experience while finally making it universal.

Justice is a human virtue that is at once unconditional and conditional. Under favorable circumstances, we can be motivated to act justly by the belief that we must live up to what justice requires, irrespective of whether we benefit from doing so. But our will to act justly is subject to conditions. We find it difficult to exercise the virtue of justice when others regularly fail to. Even if we appear to have overcome the difficulty, our reluctance often betrays itself in certain moral emotions. In this book, Jiwei Ci explores the dual nature of justice, in an attempt to make unitary sense of key features of justice reflected in its close relation to resentment, punishment, and forgiveness. Rather than pursue a search for normative principles, he probes the human psychology of justice to understand what motivates moral agents who seek to behave justly, and why their desire to be just is as precarious as it is uplifting. A wide-ranging treatment of enduring questions, The Two Faces of Justice can also be read as a remarkably discerning contribution to the Western discourse on justice re-launched in our time by John Rawls.

With technology rapidly outstripping humankind's ability to run it, an artificial intelligence program, complete with a survival instinct, called "Spartacus" is developed, but unexpected problems arise when it comes time to shut Spartacus down. Reprint.

In recent years, North American and European nations have sought to legally remake religion in other countries through an unprecedented array of international initiatives. Policymakers have rallied around the notion that the fostering of religious freedom, interfaith dialogue, religious tolerance, and protections for religious minorities are the keys to combating persecution and discrimination. Beyond Religious Freedom persuasively argues that these initiatives create the very social tensions and divisions they are meant to overcome. Elizabeth Shakman Hurd looks at three critical channels of state-sponsored intervention: international religious freedom advocacy, development assistance and nation building, and international law. She shows how these initiatives make religious difference a matter of law, resulting in a divide that favors forms of religion authorized by those in power and excludes other ways of being and belonging. In exploring the dizzying power dynamics and blurred boundaries that characterize relations between "expert religion," "governed religion," and "lived religion," Hurd charts new territory in the study of religion in global politics. A forceful and timely critique of the politics of promoting religious freedom, Beyond Religious Freedom provides new insights into today's most pressing dilemmas of power, difference, and governance.

Since its formation in 1932, Saudi Arabia has been ruled by two interdependent families. The Al Sa ' uds control politics and the descendants of Ibn Abd al-Wahhab impose Wahhabism—a violent, fanatical perversion of the pluralistic Islam practiced by most Muslims. Stephen Schwartz argues that Wahhabism, vigorously exported with the help of Saudi oil money, is what incites Palestinian suicide bombers, Osama bin Laden, and other Islamic terrorists throughout the world. Schwartz reveals the hypocrisy of the Saudi regime, whose moderate facade conceals state-sponsored repression and terrorism. He also raises troubling questions about Wahhabi infiltration of America ' s Islamic community and about U.S. oil companies sanitizing Saudi Arabia ' s image for the West. This sharp analysis and eye-opening expose illuminates the background to the September 11th terrorist attacks and offers new approaches for U.S. policy toward its closest ally in the Middle East.

Attempting to understand the catalogue of horrors that has characterised much of twentieth-century history, Western scholars generally distinguish between violent revolutions of the "right" and the "left". Fascist regimes are assigned to the evil right, Marxist-Leninist regimes to the benign left. But this distinction has left us without a coherent understanding of the revolutionary history of the twentieth century, contends A. James Gregor in this insightful book. He traces the evolution of Marxist theory from the 1920s through the 1990s and argues that the ideology of Marxism-Leninism devolved into fascism. Fascist regimes and Communist regimes - both anti-democratic ideocracies - are far more closely related than has been recognised. Employing wide-ranging primary source materials in Italian, German, Russian, and Chinese, the book opens with an examination of the first standard Marxist interpretation of Mussolini's fascism in the early 1920s and proceeds through the emergence of fascist phenomena in post-Communist Russia. A clearer understanding of the relation between fascism and communism provides a sharper lens through which to view twentieth-century history as well as the present and future politics of Russia, Communist China, and other non-democratic states, Gregor concludes.
