For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely

successful. This book offers a long-overdue acknowledgment of America's true and proud history.

Covers 10 key events from the Boston Tea Party through George Washington's inauguration, using rhyme.

This is an amazing story about the Republican Party and how they lost control of the Senate, House of Representatives, the Oval office...and themselves. Terrell Sims is a young African-American pastor catapulted to political success by the Republican Party. As the new mayor of Milwaukee, a predominantly liberal city, Terrell must pave the way for the moral majority. Each problem Terrell is confronted with is an actual story taken from real-life events in which the media has brushed over, embellished or completely ignored! From the Iran-Contra scandal, to the Iraq war and an out-and-out abuse of political power tilted away from diversity and true democracy, this novel brings entertainment as well as enlightenment from an inner-city perspective. After spending years criticizing his African-American people for their lawlessness, Terrell's very own peers, one at a time, are being exposed for the very issues they profess only exists with minorities and liberal Democrats: divorce, fornication, drug and alcohol abuse, homosexuality, pedophilia, out of control spending, you name it, Terrell's party did it. And now he is forced to reckon with, not only his patriotism toward his country when an African-American gets elected President of the United States by Democrats, but his faith in God which is challenged when his wife, Theresa is diagnosed with AIDS. This narrative relives many of the events that led to the demise of the Republican Party as well as the rise of the Democratic Party. This novel does not bash one party for another, rather it is an infectious story about a family who grows into understanding that both parties have fallen short of

what they promised to their constituents: Family Values for Republicans and Civil Rights for Democrats. This is my story of how we got to where we are today.

Army Ranger and bestselling author Kris Paronto reveals the values and creed shared by special forces for self-improvement and living a purposeful life. When Kris Paronto began talking with civilians about his experiences fighting the terrorist attack on the US State Department Special Mission Compound in Benghazi, Libya on September 11, 2012, he was surprised at how often people told him that the story of his extraordinary battle gave them courage to face tough times in their everyday lives. "The odds were stacked against us that night but the truth is that we refused to quit and we beat them with faith, teamwork, and the principles that were first instilled in me when I joined the Army. You can find those in the Rangers Creed and the Army Values," he says, "and you don't have to be a Special Operations soldier to use them." In *The Patriot's Creed*, Kris Paronto uses the seven core Army Values that all soldiers learn in Basic Combat Training, and the experiences of other servicemen and women and First Responders, to explain how anyone can improve themselves, the world around them, and live a heroic life. The stakes are dramatic for the brave men and women who put their lives on the line to fight for America, and too many of their acts of courage and honor are unknown. The examples of their persistence and discipline will be inspiring to anyone facing seemingly insurmountable obstacles. At a time of national polarization, Kris Paronto draws attention to values all readers can share and use, and to the honor, integrity and courage of true patriots who have gone to great lengths to protect and serve. They embody the best of us and

make Kris Paronto proud to be an American soldier.

By offering a documented listing of names of African Americans and Native Americans who supported the cause of the American Revolution, we hope to inspire the interest of descendents in the efforts of their ancestors and in the work of the National Society of the Daughters of the American Revolution.

This book is designed to equip the Christian Patriot to expose the evils of Islam. It examines the challenges, charts out a strategy, formulates the winning arguments, and is packed with damning evidence against Islam.

The truth about the American Revolution is under attack. Despite what you may have learned in school, it wasn't a rich slaveholder's war fought to "maintain white privilege." In fact, the War of Independence wasn't about maintaining any status quo—it was the world's first successful bottom-up revolution by the people, ushering in a new dawn of liberty that history had never seen before. But with left-wingers dominating the teaching of history, where can you go for the true story of the unprecedented events that made the United States the world's greatest nation? Now bestselling historian Larry Schweikart has teamed up with author Dave Dougherty to write the ground-breaking patriotic history you've always wanted to read about the foundation of our unique nation. The Politically Incorrect Guide to the American Revolution reveals: Four key factors that applied only in America, making it impossible to replicate the Revolution anywhere else Why it matters that the Patriot fighting force was overwhelmingly Scotch-Irish The key role of Protestantism: which denominations tended to become Patriots, and which Tories How Americans were different from the Europeans and English even at the outset

of the Revolution How the casualties of the deadliest war in American history are routinely underreported How our Revolution became a model for hundreds of others—that all failed Schweikart and Dougherty take on the left-wing myths—starting with the Marxist narrative of the Revolution in Howard Zinn's nearly ubiquitous A People's History of the United States—and uncover the truth about America's beginning.

Young patriots can read about the Tea Party's historical beginnings and about how the spirit of the Tea Party lives on.

Veteran journalists Casey Sherman and Dave Wedge have written the definitive inside look at the Boston Marathon bombings with a unique, Boston-based account of the events that riveted the world. From the Tsarnaev brothers' years leading up to the act of terror to the bomb scene itself (which both authors witnessed first-hand within minutes of the blast), from the terrifying police shootout with the suspects to the ultimate capture of the younger brother, Boston Strong: A City's Triumph over Tragedy reports all the facts—and so much more. Based on months of intensive interviews, this is the first book to tell the entire story through the eyes of those who experienced it. From the cop first on the scene, to the detectives assigned to the manhunt, the authors provide a behind-the-scenes look at the investigation. More than a true-crime book, Boston Strong also tells the tragic but ultimately life-affirming story of the victims and their recoveries and gives voice to those who lost loved ones. With their extensive reporting, writing experience, and deep ties to the Boston area, Sherman and Wedge create the perfect match of story, place, and authors. If you're only going to read one book on this tragic but uplifting story, this is it.
